

KITCHEN COLLECTION

2019

A photograph of two young children, a girl and a boy, wearing white chef hats and aprons, standing in a kitchen. They are both clapping their hands, which are covered in flour, creating a cloud of dust around them. The girl on the left is wearing a blue and white striped shirt and has flour on her face. The boy on the right is wearing a blue and white striped shirt and has his mouth open in a shout. In the foreground, there are various baking ingredients and tools, including a bowl of flour, a plate of cookies, and a rolling pin. The background shows a kitchen counter with more ingredients and a window.

IMPORTANT INFORMATION

Paints naturally age over time particularly when exposed to UV rays from sunlight. Where an addition to a kitchen is required, a freshly painted product may not exactly match products which have been in situation for a period of time.

It must be noted that under normal varying conditions of temperature and humidity, solid wood products will naturally expand and contract. This may result in hairline cracks of the paint finish at construction joints, which may be particularly noticeable on products painted with a flat finish.

Please note: Colours are reproduced as close as possible to the actual product however colour variations will occur due to the limitations of the printing process.
